Lab Vinfer

Stand 04.401

Laboratorios Vinfer will be showing its new Vinfer Professional range of aerosol products which incorporates air fresheners and insecticides.

Also on show will be the company's Premium 5+5+5 range that comprises treatment, maintenance and cleaning solutions for the professional sector.

Products on display will include T1 Stripper, T2 Crystalliser, T3 Sealant, T4 Wax Wash and Wax Maintainer, and T5 Metallised Wax. These can be used on any type of floor.

The company also offers a

HACCP product line for the food industry. The line includes degreasers, descalers, multipurpose solutions, general cleaners and products for the washing and polishing of crockery.

Clean Part

Stand 03.229

New on the Clean Part stand will be Flexis floor pads, designed for the mechanical cleaning of floor surfaces without the use of chemicals.

These thick, strong pads have an open-weave construction to facilitate self-cleaning, according to Clean Part. Flexis floor pads are said to produce long-lasting results plus a consistent finish on

all surfaces.

Also on show will be Americo biodegradable floor pads. Made using polyester fibres from PET bottles and other recycled plastics, Americo pads are said to biodegrade to 92.5 per cent in a landfill within 616 days.

Clean Part provides accessories for a wide range of industrial cleaning machines including brushes, pad holders, vacuum motors, air filters, squeegees, cables, hoses and floor pads.

ETS

Stand 11.500

The European Tissue Symposium (ETS) will be presenting its latest hygiene research into the use of single-use towels in public washrooms. This will include key facts and figures for preventing the spread of viruses, it says.

It will also participate in the conference programme.
