

WASHROOM HYGIENE

DEB LIMITED

Denby Hall Way, Denby, Derbyshire DE5 8JZ

T: +44 (0)1773 855100 F: +44 (0)1773 855107 E: talktous@debgroup.com W: www.debgroup.com

For over 70 years, the Deb Group has been providing skin care solutions in the form of hand hygiene products and dispensers, ideal for use in washrooms in general industry, healthcare, schools, manufacturing and office environments and public facilities.

Deb comprises 23 companies operating in 18 countries and we estimate that our products are used over 100 million times every day.

Deb's range of foam hand cleansers can offer cost savings, with a measured shot of soap dispensed every time. Deb foam soaps provide improved cost-in-use in comparison to many lotion soaps, with over 1400 hand washes in one cartridge. Dispensed as foam, only one application is needed for effective hand cleaning and a range of environmentally friendly EU Ecolabel certified products are available.

Deb's sealed cartridge systems are also more hygienic than bulk fill systems, pump bottle or bar soaps, as fresh product is dispensed every time, reducing the risk of contamination.

DISPOSABLES UK GROUP

Evolution Mill, Meltham Mills, Meltham, Holmfirth, West Yorkshire HD9 4FA

T: 01484 854434 F: 01484 854500 E: info@disposablesukgroup.co.uk W: www.baywesteurope.com

The Bay West range of washroom dispensing systems is manufactured and sold under licence in the UK and Europe by Disposables UK. Strikingly colourful, these dispensers get noticed, but more importantly Bay West dispensers reduce consumption, minimise waste, and so offer lower operating costs to the washroom provider. The range of hand towel, toilet tissue and foam soap dispensers are available in five exciting colours making them modern and attractive in design and there is the option of printing onto the dispenser with a company name and logo when corporate identity is important. The range of hand towels and toilet tissues housed inside the dispensers are manufactured on site at our West Yorkshire based manufacturing plant and some hold the prestigious EU Ecolabel accreditation. Wherever your toilets are located, if you need a solution that reduces costs, waste and maintenance then you should choose Bay West.

ETS – EUROPEAN TISSUE SYMPOSIUM

Kunstlaan 44, 1040 Brussels, Belgium

T: +39 (0)11 8128810 E: info@europeantissue.com W: www.europeantissue.com

ETS (European Tissue Symposium) is the European Tissue Paper Industry Association. Its members represent the majority of tissue paper producers throughout Europe and around 90% of the total European tissue production. They are dedicated to delivering products which improve hygienic conditions and quality of life. This dedication is reinforced by their commitment to use renewable raw materials, either obtained from certified forests or from recovered fibres. The goal is to not only drive the adoption of ever-greater sustainability practices within the own sector, but to be an integral part of driving sustainable hygiene and human health throughout Europe. The European tissue industry is committed to helping people achieve a better quality of life by delivering optimal hygiene that supports human health. ETS was founded in 1971 and is based in Brussels. For more information: www.europeantissue.com

FRAGRANCE DELIVERY TECHNOLOGIES LTD

T: +971 48870577 F: +9714 8870578 E: communications@oxygenpowered.com W: www.oxygenpowered.com

<http://www.oxygenpowered.com>

Fragrance Delivery Technologies Ltd is a key manufacturer of eco-friendly air freshening systems specializing in solutions for the away-from-home market. VIVA!e air freshening system and SHIELD Anti Vandal air freshening system use the patented Oxy-Gen Powered technology to deliver continuous levels of intense fragrance and odour control through the refill life of 60 days, without the use of propellants, solvents or CFCs. VIVA!e is a Carbon Footprint approved system while the SHIELD system is the only stainless steel air freshening system in the world and ideal for facilities at high risk of vandalism. The refills which contain proprietary odour neutralizer, Neutra-lox, are 100% recyclable and CARB, EU and Swiss VOC compliant. They are available in over 25 fragrances across marine, floral, citrus, fruity, designer and oriental scents. The dispensers are available in a variety of colours to suit each room and setting.
